SKILLS

PROGRAMMING
• Java • C • C++ • Python
• JavaScript • Dart

TECH STACK
• Android Dev • Web Dev
• Flutter • Firebase • Blender

TOOLS
• Git/Github • Docker • Ubuntu
• CI/CD • Custom ROMs/Rooting

FAMILIAR
• React JS • PHP • MySql
• Kubernetes

LANGUAGES
• English • Hindi • Punjabi

EXPERIENCE

GEEKS FOR GEEKS | TECHNICAL CONTENT WRITER
Apr 2023 - Present Link: Articles

• Authored **3** technical articles on Docker and AWS, which received over **5000+** views and contributed to readers' understanding of cloud computing.

GOOGLE SUMMER OF CODE'22 | CONTRIBUTOR
Jun 12, 2022 – Oct 19, 2022 | Github

• **2nd Contributor** to the project, under the GSoC'22 **@CCExtractor**.
• **Maintained** CI/CD pipeline, resulting in smooth development.
• **Fixed bugs** that occurred during the development of the Project.
• **Contributed 16 commits** to Project's Codebase.

HACKTOBERFEST | PROJECT MAINTAINER
Oct 2022 – Oct 2022 | Github

• **Mentored 15 first-time contributors** during Hacktoberfest, providing guidance on submitting high-quality pull requests.
• **Led the open-source development process,** helping contributors understand best practices and contributing to **5+ successful PRs.**
• **Assisted in merging 20+ pull requests,** fostering collaboration and contributing to the project's growth.
• **Contributed 5+ high-quality pull requests** during Hacktoberfest, directly improving the project's features and stability.

PROJECTS

UNI-SHARE | Flutter | Firebase | Github

• **Developed the Uni-Share app prototype,** aiming to support **1000+ users** for sharing academic resources like notes, assignments.
• **Implemented 10+ core features,** including content sharing, real-time chat, and file uploads, enhancing student collaboration.
• **Integrated Firebase** enabling real-time data syncing, robust database management, and seamless backend services.
• **Collaborated with 3+ developers,** ensuring seamless cross-platform compatibility for Android and iOS.

AYUMI GPT FLUTTER | OPEN AI | GITHUB

• **Developed Ayumi GPT,** a mobile app powered by OpenAI's GPT model, enabling real-time, interactive conversations.
• **Integrated Chat GPT API,** enhancing user interactions with responsive AI-driven replies.
• **Implemented key features,** like personalized chat histories and suggestions, increasing user engagement.
• **Collaborated** with a team of **2+ developers,** ensuring smooth cross-platform compatibility.
